 - Mailchimp

Jack Domleo

Junior Web Developer

PERSONAL STATEMENT

I am an energetic and enthusiastic person with six months experience working in IT and development in the airline industry. My present career aim is to progress in IT development and complete an apprenticeship course to achieve a development related qualification. I enjoy a challenge and will tackle anything thrown at me. I enjoy the environment of working in IT and I find the development work interesting and satisfying. The opportunity to learn new skills and work with new technologies is particularly attractive to me.

WORK EXPERIENCE

IT Developer Apprentice

Sept 2018 – Feb 2019

flybmi, East Midlands Airport

As an IT Developer Apprentice for this airline, my responsibilities included:

- Worked towards BCS Level 3 in Software Development
- Developed new programs from a design specification using frameworks such as Bootstrap 4, Grav CMS, Core UI and Electron JS
- Created new templates for the CMS and maintaining the flybmi.com website

During my time at flybmi, I gained 6 months' worth of knowledge and experience working in the airline industry and working together with other employees to develop an end product.

Reason for leaving: Company filed for administration.

Retail Assistant

June 2017 – Aug 2018

Primark, Nottingham

As a Retail Assistant for this high street clothing company, my responsibilities included:

- Answering customer queries and maintaining quality customer service
- Ensuring items are restocked and displayed effectively
- Training new starters with their duties (till training, department training)

During my time at Primark, I gained skills and experience in teamwork, customer service/engagement and merchandising.

Reason for leaving: Found an apprenticeship at flybmi to begin my career
